Fair Oaks, CA: **Monica Hall Spa™ Collection – Beautiful, radiant-looking skin is a right at any age.**

Monica Hall introduces AgeRevers™ skincare formulated exclusively with nurturing, plant-based, organic ingredients in a luxe, Aromatherapy collection. Protecting and rejuvenating skin day & night restores its youthful glow.

“I believe you deserve to look your best as you age,” Hall says. “I studied with the world’s most renowned experts to gain a broad understanding of plants’ symbiotic relationship with our skin. Then I worked with an award-winning green, dermatologic chemist to create an organic line designed to nourish skin.”

Petrochemical molecules, found in many other skincare formulas, are too large to enter the skin. Since they cause products to remain on the skin’s surface, dependency and decreased performance occur. Other commonly used synthetic ingredients are linked to health risks and can accelerate aging.

In stark contrast, Monica Hall Spa Collection’s products are absorbed into the skin, delivering effective, age-reversing nutrients.

“Whether you want to maintain or recover youthful skin, this collection works,” she continues. “It specifically addresses and fights the seven signs of aging – dehydration, fine lines, wrinkles, skin discoloration, large pores, loss of elasticity & loss of fullness.”

The absence of animal byproducts and testing earned the line certification by Vegan Action. Actives from plants, known as phyto-dynamic, energize skin with vitamins and antioxidants.

Environmentally-friendly/green, the collection is produced with a minimal carbon footprint. The products are formulated with essential oils specifically chosen for their powerful benefits to skin in Northern California, America’s hotbed of herbalism and Aromatherapy.
